Curator's comment:

(added: 16 Dec 2019, 11:23:44, updated: 16 Dec 2019, 11:23:44)

The model has been encoded in COPASI 4.24 (Build 197) and the figure 3a has been reproduced using COPASI

There was one parameter missing in the paper that is of y (Effector cell) initial concentration. From the existing paper I tried to do parameter scan and found that the value was 0.01. This produces the exact figure
